

# RIPPLE TANK

## DIGITALLY CONTROLLED

AE-R0001

Required for Form 5 Physics experiments

Digital Controller

### FEATURES

Easy to install in less than 2 minutes and guaranteed results! A newly design ripple tank with digital controller to adjust the frequency and amplitude of the vibrator. With a clear LCD display, the reading of the respective frequency can be easily read and determined

### SPECIFICATIONS:

- Operate on 15 V, 2A DC power supply
- Frequency range: 30—100Hz
- Strobe unit operate using 3—6.5 V
- Cased in box with compartmental slots for ease storage
- Overall dimensions approx. 530 x 430 x 130 mm
