

SYRINGE DISPOSABLE 10ML

Features:

- High clarity barrel, made from medical grade polypropylene
- Latex free piston, lubricated with medical grade silicon for a smooth draw
- Nozzle conforms to ISO 594 and ISO 7886 to fit needles and tubing
- Exact and long lasting graduation marks printed on the barrel
- Internal ring in barrel acts as a lock to ensure plunger does not displace during draw
- Available with needle (**AA-S0056**) or without needle (**AA-S0057**)
