

# ASBESTOS PAPER

CODE	TYPE	SIZE (mm)
CH-A0049	Asbestos paper	320 x 520
CH-A0050	Asbestos sheet	300 x 300

## DESCRIPTION -

- A thin, flexible, fireproof insulating paper composed of felted asbestos fibers.
- Asbestos paper is generally bonded with a solution of sodium silicate, silicone resin, or clay.
- Used for electrical/heat insulation of electrical equipment, wiring and plant.
- Asbestos paper has also been used to reinforce bitumen and other products, and as a facing/lining to flooring products, combustible boards, and flame-resistant laminate.
- Asbestos paper is inert to most chemicals.
