# BUNSEN BURNER: BLOW TORCH PORTABLE BAKARI

IDEALGAS soldering irons have been studied and produced to be used only under the following conditions:

- Working gas : G.F.L
- Working pressure : Direct
- Types of reloaded cartridge : IDEALGAS 190 g

#### **Maintenance and safety:**

The blowpipe must be used in airy rooms. The seal of the joints must be periodically checked especially in case of change of the blowpipe. For said purpose wet the joint with water and soap and check there are no bubbles.

**\* CARTRIDGES HAVE TO BE KEPT AWAY FROM FIRE EVEN WHEN THEY ARE DISCHARGED**
