DIAL-O-GRAM : MODEL 310-00

Ohaus Dial-O-Gram balance is firm favorites in schools. It offers high precision and remarkable value. The three-point base, self-aligning bearings, and beam design eliminate the need for level adjustment. Zeroing is quickly achieved with a counterbalancing knob at the end of the beam. The Dial-O-Gram 310 uses a vernier dial in place of two beams making it a great time saver in routine use.

Specifications

Capacity (metric):	310g
Readability (metric):	0.01g
Calibrations :	
Dial	10g x 0.01g
Front beam	100g x 10g
Rear beam	200g x 100g
Platform construction:	Stainless steel pan (removable)
Platform size (Dia x Depth) (in/cm):	3.5 x 0.5 / 8.9 x 0.7
Shipping dimensions (in/cm):	20 x 8 x 9 50.8 x 20.4 x 22.9
