

AE-P0003

POWER SUPPLY UNIT E.H.T, IEC AUSTRALIA

SPECIFICATIONS:

- With voltmeter to monitor DC output
- Separate On/Off switch for high voltage
- Twin outputs 0-2500V DC fully floating, which can be connected in series to provide 0-5000V. DC with center tapping. Earth terminal is provided for reference of output to earth if required
- 2x isolated low voltage 6.3V AC total load 4A max
- Auto-reset thermal overload protection on Low Voltage
- Loud audible "click" as trip and reset occurs. All outputs may be used concurrently
- Terminals: 4mm socket with spin free head
