

SF-G0001

CHEMICAL RESISTANT GLOVE

Ideal for Chemistry Laboratories.

- Protection against a wide range of chemicals including concentrated acids, alcohols, detergents, caustics, salts, ketones (MEK) and animal fats.
- Extra thickness for superior hand protection
- Chemically toughened
- Longer length glove
- Superior patterned grip for enhances performance on wet and dry surfaces

Applications:

- Science Laboratories
- Automotive Assembly
 - Aviation Industry
- Battery Manufacturing
- Chemicals Processing
- Pesticide Manufacturing
 - Plant Maintenance
 - Food Processing

SPECIFICATIONS

Colour	Blue on yellow
Material	Polychloroprene on natural rubber latex
Type	Cotton flock-lined
Length	330mm (13")
Thickness	0.7mm(28mils)
Size	7,8,9,10,11,12
