

AA-T0031

# TIMER SCALER, IEC

A versatile multi functions instrument for laboratory usage

## SPECIFICATIONS:

- High speed timing to 100 microseconds resolution
- Large 6 digits LED display
- Automatic loading memory that can be selectively deleted to remove errors and totalled or averaged
- Output sockets for 12 V a.c supply and extension speaker
- Accepts both high voltage GM tube and low voltage Alpha detector
- All functions are microprocessor controlled
- Operate on 220/240 V a.c, 50/60Hz
- Overall dimensions approx. 325 x 170 x 107 mm
