

AE-P0008

POWER SUPPLY DIGITAL E.H.T

SPECIFICATIONS:

- Digital Voltmeter. E.H.T. circuits are fully floating so that for certain applications the positive and negative terminals may be connected to earth
- Continuously variable output from 50V to 7.0 KV.
- A centre tapped socket is provided to give ± 3.5 KV output
- Designed for Education where high voltage required.
- Operates on adaptor with 100- 240 V AC universal voltage.
- Additional pair of 4 mm socket is giving 6.3V AC at 2A for filament supplies
- Size : 350 x 150 x 150mm
